Subject: Replacement of Isolators – IS6

Dear Jon:

ALSTOM is pleased to submit our quotation for changing isolator IS6 from an un-powered unit, p/n MCR-CLP-UI-I-4 for a powered unit, p/n MCR-C-UI-UI-DCI, in accordance with your (via Nathan Crop) request to Sid Pant. The following items are included in the price.

1. Supply of four (4) powered Isolators to replace the un-powered Isolators in drives 1C & 1D, one (1) per channel. Installation not included.
2. Replacement of six (6) un-powered Isolators, already received, with powered Isolators in drives 2A, 2B & 2C, currently in manufacture.
3. Replacement of four (4) un-powered Isolators, ordered, but not yet delivered, with powered Isolators in drives 1A & 1B, to be built next year.
4. Changes to drawings and instruction books as necessary.

The price for this change is \$3,725.00. Please advise any questions or comments. We would appreciate your acceptance of this proposal as quickly as possible, if you desire to proceed with it, so as not to increase the amount of rework required on the three (3) drives currently in manufacturing.

Sincerely,

Stephen P. Klein  
Project Manager
